To Whom It May Concern:

We are writing this letter to request a return visit from your dental van, "Tooth Mobile". We were so pleased with our initial visit and the response from the children was overwhelming. We also would like to acknowledge the technicians who were working with us that week. They were so kind and gentle with all the students lending to an excellent response from our parents for more services. I have spoken on two occasions with the people in your home offices and have been updated on the importance of only seeing those with insurance coverage. I feel confident that we can fulfill those needs and am anticipating your return.

Sincerely,

Colleen Stricklin, Health Aide
